Sisters and Brothers,

On Wednesday September 20th, Aaron Blackmore a Bell technician from local 39-0 was involved in an on duty accident and sustained serious injuries to both his legs. He is currently in Sudbury hospital while he goes through surgery to repair the damage, his family is there with him at this time. We are hoping to raise some funds to help with costs that will arise for Aaron's family as they support him through his recovery. Any donations from locals or individual's would be greatly appreciated.
